

PRODUCT INFORMATION DATA SHEET

LIBNOL - 101

DESCRIPTION : Oleo chemical derivative

SPECIFICATIONS :

| | |
|--------------|-------------|
| Appearance | Liquid |
| Acid Value | 5 Max. |
| Iodine Value | 70 - 80 |
| Flash Point | Above 180°C |

APPLICATIONS : Libnol - 101 is an effective pigment wetting and dispersing agent for Titanium Dioxide and other inorganic pigments, hence is suggested in pigment master batches.

DOSAGE : 0.1 to 0.2 %

GUIDELINES FOR USE

: Libnol - 101 is suggested to be added to the base resin before addition of other ingredients/pigments to achieve the desired results.
