

## PRODUCT INFORMATION DATA SHEET

# LIBNOL - 400

**DESCRIPTION** : Fatty acid derivative

**SPECIFICATIONS** : Appearance : Amber Colour Liquid  
Acid Value : 6 Max.  
Saponification Value :  $80 \pm 2$   
Specific Gravity : 1.01

**APPLICATIONS** : Libnol - 400 is an efficient wetting and dispersing agent to disperse (generally difficult to disperse) pigments like carbon black and specific organic pigments.

**DOSAGE** : The dosage depends on the percentage of pigment loading in a particular master batch.  
Suggested level is 0.5 to 2.0 %

**GUIDELINES FOR USE** : Libnol - 400 is suggested to be added to the base resin before addition of other ingredients/ pigments to achieve the desired results.
